

Health & Safety Advisor – Port Coquitlam, BC

CIMS LP is seeking a **dynamic, problem-solver with the ability to implement and support EH&S initiatives** to fill the role of **Safety Advisor** at our **Port Coquitlam, BC** location. This position is **temporary, project-based work** with the potential to become permanent for the right candidate. Students and entry-level individuals are welcomed to apply. CIMS is passionate about hiring and retaining the market's best talent and offers exciting work, training & development, engagement and opportunity for growth to all of its employees. As this role is to support local clients, no LOA will be offered.

CIMS LP is 100% Canadian owned and operated mechanical contractor serving locations across Canada. CIMS provides services in the heavy industrial sector including the largest plant shutdowns and complex industrial projects in the Oil & Gas, Mining & Industrial, Pulp & Paper, and Power Generation industries.

In the position of **Safety Advisor** reporting to the Regional H&S Lead, you will be expected to work closely with all internal stakeholders to implement and support all Health and Safety initiatives at your location.

You will be accountable for:

- Working collaboratively to ensure that all H&S legislative and regulatory requirements are incorporated in to CIMS LP H&S practices consistently and effectively
- Ensuring that CIMS' Core Values and Guiding Principles are integrated into all business and safety practices
- Supporting the on-site implementation of all CIMS Safety initiatives
- Ensuring compliance with all legislative and regulatory requirement
- Working collaboratively to improve H&S outcomes across the region
- Providing H&S support, leadership and training to all on-site personnel and supervisors

To qualify for this role, you must have:

- Occupational health and safety related professional development courses
- College or university level occupational health and safety related certificate. A diploma or degree would be an asset
- CHSC designation would be an asset
- CRSP designation would be an asset
- Safety Certification would be an asset
- Demonstrated knowledge and understanding of H&S legislation and regulatory requirements
- Experience in manufacturing, industrial construction or other heavy industry sector preferred
- DNV Technical Loss Prevention, Investigations, and/or COR Auditing certification would an asset
- Collaborative, self-starting, team player willing to work towards achieving the strategic goals of the company
- Ability to multi-task and manage conflicting priorities
- Excellent verbal & written communication skills
- **Valid driver's licence required**

If you feel you are qualified for this role, please submit your resume to hr@cimsltd.com
