Quality Control Contractors - Kitimat, BC

A tremendous opportunity with a progressive, people-oriented company...

Synergy HR Consulting is Human Resource Management and Recruitment firm – providing a broad range of HR & Recruitment services to a variety of businesses in all industries in Canada. We work collaboratively with our clients to ensure we understand their core business, building teams that are engaged, empowered and accountable. Our meaningful, long-term relationships with our clients make us an industry leader in providing exceptional HR and Recruitment support.

On behalf of our client, **CIMS Limited Partnership**, Synergy HR is seeking *specialist contractors to provide assistance and direction to Supervisors in the performance of inspections, tests and the completion of documentation to fill the role of Quality Control Contractor located in the Kitimat, BC area.*

CIMS LP is 100% Canadian owned and operated mechanical contractor serving locations across Canada. CIMS provides services in the heavy industrial sector including the largest plant shutdowns and complex industrial projects in the Oil & Gas, Mining & Industrial, Pulp & Paper, and Power Generation industries. In addition to being an industry leader, CIMS is passionate about hiring and retaining the market's best talent and offers exciting work, training & development, engagement and opportunities for growth to all of its employees.

In the position of **Quality Control Contractor**, reporting to the QC/QA Lead, you will provide assistance and direction to supervisors in the performance of inspections, tests and completion of documentation covering welding, mechanical, rotating equipment, electrical and instrumentation disciplines. This position also tests and samples raw materials and incoming products to ensure compliance with company standards. Quality Control will perform spot checks and other quality audits to ensure procedures and practices are being followed and will participate in final inspections as well as the coordination and supervision of all non-destructive examinations.

You will be accountable for:

- Ensuring all incoming and outgoing raw and fabricated materials meet quality standards
- Ensuring inspections and tests are completed to the required standards
- Ensuring all QC/QA documentation is complete
- Taking a mentorship role within the QC team and allocating QC resources when required
- Ensures internal and external customer needs are supported.
- Living the CIMS corporate values by demonstrating a professional and respectful workplace and promoting collaboration, innovation and engagement

To be successful in this role you must have:

- Completion of secondary school or equivalent or a combination of education & related experience
- Certifications required to do testing
- 2+ years industrial construction quality control and/or assurance experience

- Ability to read blueprints and interpret engineering drawings as well as the ability to read and understand company procedure manuals
- Ability to use measuring equipment effectively, including micrometers, Vernier's, height and bore gauges
- Possess a strong ability to problem solve and determine reasons for errors in products/causes in problems
- Strong communications skills (written and oral), planning, organization, conflict resolution and training skills
- Working knowledge of all applicable software (MS office), including the creation of spreadsheets
- Valid driver's licence

If you feel you are qualified for this role, please submit your resume to ASmith@SynergyHRConsulting.net

Only candidates who are most qualified for the position will be contacted.
