

SYNERGY HR
CONSULTING

Quality Control Lead – Port Coquitlam, BC

A tremendous opportunity with a progressive, people-oriented company...

Synergy HR Consulting is Human Resource Management and Recruitment firm – providing a broad range of HR & Recruitment services to a variety of businesses in all industries in Canada. We work collaboratively with our clients to ensure we understand their core business, building teams that are engaged, empowered and accountable. Our meaningful, long-term relationships with our clients make us an industry leader in providing exceptional HR and Recruitment support.

On behalf of our client, **CIMS Limited Partnership**, Synergy HR is seeking *specialist contractors to provide assistance and direction to Supervisors in the performance of inspections, tests and the completion of documentation to fill the role of Quality Control Lead located in the Port Coquitlam, BC area.*

CIMS LP is 100% Canadian owned and operated mechanical contractor serving locations across Canada. CIMS provides services in the heavy industrial sector including the largest plant shutdowns and complex industrial projects in the Oil & Gas, Mining & Industrial, Pulp & Paper, and Power Generation industries. In addition to being an industry leader, CIMS is passionate about hiring and retaining the market's best talent and offers exciting work, training & development, engagement and opportunities for growth to all of its employees.

In the position of ***Quality Control Lead, you will*** oversee the quality department activities for their specific location and create and sustain a quality-conscious environment. This position also implements and maintains sound quality guidelines, practices and procedures to assure top quality on all projects. The QA Lead supports the project management team in QA matters and provides work leadership and training to other inspectors.

You will be accountable for:

- Provides Quality Assurance (QA) leadership and direction to QA and staff in their location.
- Mentors and develops the QA/QC team in their location.
- Allocates QA/QC resources to various projects and project sites in their location.
- Creates and sustains a quality-conscious environment.
- Lives the CIMS corporate values by demonstrating a professional and respectful workplace and promoting collaboration, innovation and engagement.
- Support and promote CIMS' Culture, Values and business strategy.
- Ensures internal and external customer needs are supported.
- Living the CIMS corporate values by demonstrating a professional and respectful workplace and promoting collaboration, innovation and engagement

To be successful in this role you must have:

- A university degree or college diploma in manufacturing, engineering or a related discipline or a combination of education and related experience.
- Previous experience in manufacturing environments is a strong asset
- ASQ Certification
- Minimum of 5 years of experience in manufacturing and 5 years in QA/QC supervision.
- Ability to respond to customer complaints.
- Ability to train employees on job tasks and quality objectives/initiatives.

- Produce and interpret charts and metrics for the management team and/or customers. Complete legal forms for the company.
- Ability to work independently and lead and participate in a team setting. For example, participate in group discussions on methods for improving work processes or product quality and the allocation of work responsibilities and goals.
- Advanced knowledge of machine capability requirements.
- Trained in the ISO/TS16949 quality management systems and internal auditing.
- Knowledge of the Core Tools (APQP, MSA, PPAP, SPC, FMEA).
- Possess a strong ability to problem solve and determine reasons for errors in products/causes in problems
- Strong communications skills (written and oral), planning, organization, conflict resolution and training skills
- Working knowledge of all applicable software (MS office), including the creation of spreadsheets
- Valid driver's license
